EXPERIENCE

MOTIVE | ANDROID DEVELOPER

Oct 2023 – Present | Remote, IN

- Implemented a design components library to be used across both their Driver and Fleet app
- Migrated Legacy View Based Screens to Jetpack Compose Screens
- Worked on Improving KMP Usage across different parts of the app
- Conducted bug-bash sessions and business logic unit testing to ensure app stability.

SMALLCASE | SENIOR SOFTWARE ENGINEER

March 2020 – Sept 2023 | Bangalore, IN

- Led a team of 7 members to launch the Tickertape Flutter App for iOS and migrated the Android App to Flutter.
- Set up the critical architecture of the Flutter app with plugins like bloc, go_router, dio, get_it and etc
- Worked on critical parts of their apps like navigation, deep linking, payments, login etc.
- Worked on the Android app, launching Social and Homepage features to increase engagement and used architecture components like Room, LiveData, and ViewModel.

CLEARTRIP | ANDROID INTERN

Feb 2019 – Feb 2020 | Bangalore, IN

- Contributed to the development of hotel booking feature on an Android app with over 10 million downloads
- Updated legacy code to fix memory leaks and enhance functionality, resulting in improved stability and usability
- Incorporated GraphQL to streamline API management and reduce API calls by 50
- Transitioned to a multi-modular architecture to address inter-team conflicts challenges

PROJECTS

POCKET MANAGER Dec 2020 – Dec 2021

Pocket Manager is an expense tracking app build for users who want clean user-interface with robust functionalities.
